Message From the President & CEO

Dear Supporters, Partners, and Friends,

The year 2024 marked a period of deep commitment, learning, and impact for Alliance for CancerCare Equity (ACCE). As an organization driven by compassion and equity, we continue to stand alongside cancer patients facing significant barriers to treatment: financial, systemic, and logistical.

Throughout the year, we witnessed both the urgency of our mission and the resilience of the individuals we serve. Despite limited resources, ACCE supported multiple patients through chemotherapy, radiotherapy, and related care needs across Ghana and Canada. These efforts were made possible through the generosity of our donors and the dedication of our board members and volunteers.

However, 2024 also revealed the growing gap between need and available resources. While we expanded the number of patients supported, we also experienced increasing financial pressure, highlighting the importance of strengthening our fundraising efforts and organizational capacity.

We are proud of the systems we began building this year, including patient support groups, improved approval processes, and expanded fundraising strategies, which will serve as a foundation for future growth.

We extend our heartfelt appreciation to everyone who contributed to this work. Together, we are making a meaningful difference: one patient, one family, and one community at a time.

Sincerely,

Dr Ernest Osei

Founder, President & CEO

Alliance for CancerCare Equity (ACCE)

Our Vision:

No cancer patient is denied high-quality cancer care based on race, religion, or a family's ability to pay.

Our Mission:

To advance equity in the cancer care continuum from prevention to survivorship and to serve patients battling cancer and their families with the financial, emotional and educational support necessary to cope with the life-threatening illness.

Who We Are

Alliance for CancerCare Equity (ACCE) is a registered charity organization in Canada and Ghana to advance equity in cancer care. We firmly believe that no person should die of cancer because the family cannot afford to pay for their treatment. Moreover, the financial situation of a patient's family should never dictate their chances of surviving a cancer diagnosis. Thus, we have taken on a very ambitious cause to pay for the cancer treatment and related cost of patients who are without the financial means to pay for their treatment.

Our Purposes

- To fund the treatment, travel, and related costs for patients with cancer who are without the financial means to receive adequate healthcare services, in Canada and Ghana
- To provide medical equipment for the diagnosis and treatment of cancer patients in non-profit community healthcare centers
- To provide cancer patients and their families with access to mutual support groups and related counselling
- To conduct research into the causes, prevention, screening, diagnosis, control, and management of cancer and other diseases, in Canada and Ghana

About Alliance for CancerCare Equity

Alliance for CancerCare Equity (ACCE) is dedicated to reducing disparities in cancer care by supporting underserved individuals who face financial and systemic barriers to treatment.

Our mission is to ensure equitable access to cancer care by:

- Providing financial support for treatment
- Assisting patients with navigation and care coordination
- Offering emotional, spiritual, and community-based support

We believe that access to cancer care should not depend on one's financial circumstances or geographic location

2024 Program Activities

A. Patient Support and Treatment Assistance

Patient care remained the central focus of ACCE's work in 2024.

Patient Support Highlights

- Supported patients across Ghana and Canada
- Increased the number of patients receiving ongoing treatment support throughout the year
- ACCE fully paid for the cost of treatment and medications for 19 new cancer patients in Ghana
- Monthly treatment costs ranged between 1,200 GHS to 4,600 GHS per patient
- Radiotherapy treatments ranged between 15,000 GHS to 23,000 GHS per patient

ACCE also supported:

- A patient receiving chemotherapy in the Kitchener-Waterloo region, with treatment payments completed in June 2024
- Multiple patients at Komfo Anokye Teaching Hospital (KATH) and Korle Bu Teaching Hospital (KBTH)

Challenges in Care Delivery

- Persistent breakdown of radiotherapy equipment at KATH forced patient referrals to other facilities such as KBTH
- Rising treatment costs placed increasing strain on ACCE's financial capacity
- At least one patient supported since 2023 passed away in 2024, reminding us of the urgency of timely intervention

B. Patient Support Systems and Community Care

In 2024, ACCE made important strides in strengthening holistic patient support.

ACCE Forum

A new ACCE Forum was created to:

- Bring patients together on a shared platform
- Foster peer support and community
- Provide a space for discussion and shared experiences

ACCE Support Group

A structured support system was introduced, connecting patients with:

- Nurse support (led by Johnson)
- Counselling support (led by Daniel)
- Spiritual support (led by Kwame)

These services provided emotional, psychological, and spiritual care alongside financial assistance.

Later in the year, support structures were streamlined into a unified forum model to improve coordination and engagement.

Accommodation Support

ACCE facilitated accommodation arrangements in Kumasi for patients traveling for treatment, helping reduce logistical burdens and improve continuity of care.

C. Organizational Development and Systems Improvement

Governance and Board Development

- Discussions were initiated to recruit new board members with expertise in fundraising
- Consideration was given to appointing a fundraising lead in Ghana, potentially as a paid or non-board role

Process Improvements

- A new patient approval form was developed to streamline decision-making
- A simplified electronic approval process was implemented for board members

Staffing Considerations

- The board discussed the future possibility of hiring part-time staff in Ghana to:
    - Support patient navigation
    - Manage treatment payments
    - Maintain financial documentation and receipts

This reflects a growing recognition of the need for in-country operational support.

D. Fundraising and Resource Mobilization

Fundraising efforts in 2024 focused on building sustainable income streams.

Key Initiatives

- Exploration of souvenir-based fundraising (pens and T-shirts)
- Engagement with suppliers to identify cost-effective options
- Encouragement of social media outreach and influencer engagement
- Direct appeals to:
    - Friends and personal networks
    - Over 200 charities and organizations

Donation Trends

- Approximately 6–8 consistent monthly donors supported the organization

- Additional one-time donations supplemented income
- Notable contributions included:
    - $6,990 from PayPal Giving Fund
    - 1,400 CAD raised through personal appeals
    - Donations received via MTN MoMo in Ghana

Despite these efforts, the organization identified a clear need to:

- Increase the number of monthly donors
- Diversify funding sources
- Strengthen donor engagement

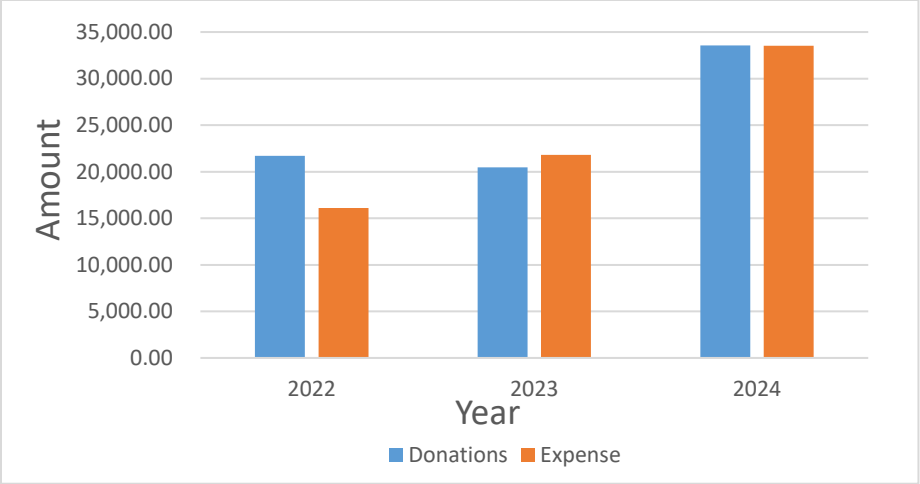
2024 Financial Statement

Thanks to all our dedicated donors for your generous support. We want you to know that 100% of every donation goes directly toward covering the cost of treatment for cancer patients. Every dollar you give helps provide critical care, medications, and support services, making a real and immediate difference in the lives of those fighting cancer.

ACCE INCOME STATEMENT DECEMBER 31 2024	
Donations (2024 opening balance)	3,826.93
Total Revenue Receipted	18,647.52
Total Donations un-receipted	14,924.18
Total Expenses	-33,544.95
Ending Balance January 2 2025	3,853.68
Donations made up to February 28, 2025	1,800
ACCE BALANCE SHEET DECEMBER 31 2024	
Cash	3,853.68
Equity	3,853.68
Donations made up to February 28, 2025	1,800

Donations and Expense Chart by Year

100% of all donations go directly toward cancer treatment



Additional Financial Activity

- MTN MoMo system implemented for local donations (with ~1% fee + transaction costs)
- Bank charges incurred for transfers and account maintenance

Financial Reflection

ACCE operated with a strong commitment to directing funds toward patient care. However:

- Expenses often matched or exceeded donations
- Financial reserves remained limited
- Sustainability depends on growing consistent monthly donations and external funding sources

Special Mentions and Thank Yous

To Our Donors

We extend sincere appreciation to every individual and organization that contributed financially in 2024. Your generosity directly enabled patients to receive life-saving treatment.

To Our Board Members

Thank you for your leadership, sacrifice, and dedication. Your work in governance, fundraising, and patient support continues to drive ACCE forward.

We also acknowledge Tara Bedard and Mavis Owusu-Gyamfi for their service and contributions. We wish them well in their future endeavors.

To Our Support Leads

Special recognition to:

- Johnson (Nurse Support)
- Daniel (Counselling Support)

- Kwame (Spiritual Support)

Your leadership in patient care initiatives has been invaluable.

To Our Volunteers and Community Supporters

Thank you to all who supported fundraising, outreach, and patient care efforts, whether through advocacy, donations, or logistical support.

To Our Local Partners and Contributors in Ghana

We appreciate the individuals and institutions who supported coordination, donations, and patient care logistics locally.

Future Goals

Building on lessons from 2024, ACCE has identified key priorities for future growth:

1. **Expand Patient Support Capacity**

Increase funding to support more patients and reduce delays in treatment assistance.

2. **Strengthen Fundraising Efforts**

- Increase the number of monthly donors
- Develop structured fundraising campaigns
- Explore corporate and institutional partnerships

3. **Establish Local Operational Support in Ghana**

- Hire part-time staff to support:
    - Patient navigation
    - Payment coordination
    - Documentation and reporting

4. **Enhance Patient Support Programs**

- Expand the ACCE Forum and support groups
- Improve coordination of counselling, nursing, and spiritual care

5. **Improve Organizational Systems**

- Strengthen financial tracking and reporting
- Improve patient approval processes
- Enhance communication with donors and stakeholders

6. **Increase Awareness and Outreach**

- Leverage social media and storytelling
- Share patient impact stories
- Engage broader communities and networks

Closing Reflections

The year 2024 was one of meaningful impact and important learning. ACCE demonstrated its ability to provide critical support to cancer patients despite financial and operational constraints.

At the same time, the year highlighted the urgent need for growth, in funding, systems, and capacity, to meet increasing demand.

As we move forward, we remain committed to building a stronger, more sustainable organization that can expand its reach and deepen its impact.

Together, we can continue to advance equity in cancer care and bring hope to those who need it most.
